CAREER SUMMARY

Results-driven software engineer with experience in full-stack web development, specializing in JavaScript, React.js, Next.js, and Node.js. Proven track record in building scalable applications across EdTech, FinTech, HR, and e-commerce domains. Passionate about delivering high-quality code, enhancing usability, and ensuring accessibility. Strong collaborator with experience managing front-end teams and integrating back-end solutions.

EXPERIENCE

Senior Software Engineer - UAPP - Full Time(March-2023 to Continue)

Responsibilities:

- Lead the front-end engineering team at Uapp.
- Analyzing and optimizing applications for scalability and performance.
- Ensuring clean, maintainable, and testable code that adheres to best practices.

Key Projects:

- **Built and scaled UAPP** - a global university application management platform now supporting 180+ universities, 7,000+ students, and 650+ consultants.
- **Developed UAPP LMS** - a lead and event management system with a custom form builder, improving student engagement and consultant workflow efficiency.
- **Designed and launched UAPP Chat App** - an AI-powered communication tool for universities, enabling real-time support and interactions similar to ChatGPT.

Live Projects: [UAPP](#), [UAPP-University Application System](#), [UAPP-LMS](#), [Chatuapp](#)
